

North Battleford International Street Performer Festival Vendor Policies

Any vendor that does not adhere to these policies will not be able to set up or continue set up during festival. If a violation of policy occurs during festival, the vendor must shut down, and clear festival site when festival hours are over.

POLICY I: Payment

- Cash payment **will not** be accepted
- Vendors can pay:
 - via cheque: 912 111th street, North Battleford, SK S9A 3S9
 - interac money transfer to: **nbstreetfestival@gmail.com**
- All vendors must pay one week in advance of the festival. If a vendor has not paid prior to festival, they will not be permitted to set up

POLICY II: Cancellation

Cancellation with full refund is June 30, 2018. Any cancellation after June 30, will not be refunded.

POLICY III: Equipment

NB Street Fest does not supply any vendor with any equipment needed to run their booth.

POLICY IV: Load In & Load Out

- Each vendor will be given a **load in time**. Failure to meet your load in time will result at being placed in another location or being removed from vendor alley.
- Final load out will not occur until 6:30pm on the Sunday of the festival
- *All vendors must commit to setting up for festival for the three days. If a vendor decides to leave early, or cannot set up for one of the three days, they will be charged an additional fee of \$100*

POLICY V: Arrival and Departure/Set up & Takedown

- All vendors need to be set up a half hour before festival begins
 - *Friday evening: 3:30pm; Saturday and Sunday morning: 10:30am*
- Any vendor who is not set up a half hour before will not be permitted to set up for that day

POLICY VI: Noise and Generators

- All generators must not give off a noise level that **exceeds 85dB**.
- Saskatchewan Government Occupational Health & Safety policy outlines that no person can be exposed to sound **over 85dB** for a period of 8 or more hours.
- As the Saturday of NB StreetFest exceeds 8 hours, the board of directors strongly advises that all generators are between the **70-85dB range**
